

I am sure you are all watching the news this morning and hearing that GP surgeries will be receiving their delivery of the Astra Zeneca Covid-19 vaccinations today. I want to inform you that any delivery of this vaccine will not be delivered direct to the surgery, it will go to the central vaccination centre at County Showground. As soon as we are advised that we can invite patients for vaccination at the Showground we will call you by phone to offer you an appointment. Please note there are sadly some scams going round and we ask that you are cautious.

We will never ask you for any bank details / financial information when organising your appointment.

Keep safe and we will contact you as soon as we can. Thank you for your patience.
