The Gnosall Surgery is a Training practice and includes :

- Vocational training for Doctors planning to become GPs
- Primary Care training for Doctors in their foundation years. The training periods, at the Surgery, are for between 4 and 12 months.
- Many of the trainee Doctors are from Keele University.
- Student Nurse training.

Gnosall Surgery Patients Forum

The Gnosall Surgery is continuously improving and expanding its range of services and facilities and it needs **your feedback**.

Disappointingly, in the last year, the number of missed appointments at the Gnosall Surgery was : **1,142**

To assist in this task The **Gnosall Patients Forum** was established a number of years ago, with the principal objectives :

- To act as an interface and communicator between the patient population and the Practice.
- To have an appreciation of hospital and community care.
- To be informed of changes in Health Care policies and their implications.

The Forum has been very active in the recent past and is keen to upgrade its mutual involvement by encouraging more interested Patients to join the Forum.

To find out more about the Gnosall Surgery and how it can help you, your family and friends, and, as importantly, voice your opinion, concerns and ideas, please come to one of their meetings – you will be welcome.

Becoming a member of the Forum is simple – you just turn-up for the meetings which have a maximum duration of 2 hours.

Meetings are held every other month in the 1st floor Meeting Room at the Gnosall Surgery, starting at 2 pm until 4 pm on the **third** Wednesday of :

January + March + May
July + September + November

The Forum's AGM is held on the **third** Wednesday of **October**, also from 2 to 4 pm.

For more information about the **Patients Forum**, see the Forum's web site, which includes copies of the minutes of recent meetings.
